(Instalments for attending university courses and exemptions from fees and contributions).

- 1. For the purpose of paying the amount of tuition fees owed for university courses attendance by instalments, state universities and institutions of higher artistic, musical and coreutic education hereinafter referred to as: 'Institutions' shall assess the financial status of those enrolled in the terms provided for in Article 8, Paragraph 3, and may take into account education differentials costs in combination with different disciplines.
- 2. Students meeting the eligibility requirements for scholarships and disabled students with a recognized disability under Article 3, Paragraph 1, of Law No. 104 of February 5, 1992, or a disability grade of sixty-six percent or more will be totally exempted from paying tuition and university fees by institutions and universities.

- 5. Students who wish to re-entry their academic careers after a period of study interruption of at least two academic years for the academic years in which they were not found to be enrolled will be totally exempted by paying tuition and fees by universities. For this period of time, they are required to pay a fixed fee, set by the universities, for each year.
- 6. Students who benefit from the provisions in paragraphs 4 and 5 cannot perform any career step during their study interruption. The application for this benefit cannot be revoked during the academic year, and the interruption time is not taken into account for the purpose of the merit evaluation under this Decree.

In order to ensure that legally recognized non-governmental universities receive adequate financial burdens arising from the application of this decree, in the allocation of contributions provided for in Law No. 243 of July 29, 1991, the Minister defines specific incentives. These incentives should take into account the universities' compliance to the policies of equal access to universities studies, with particular reference to the increase in the number of total exemptions, compared to the 2000 2001 academic year, starting from the tuition fee and university contributions of students who meet the eligibility requirements for scholarships as referred to Article 8.
